THERE'S A REASON WE'RE THE WORLD'S FASTEST GROWING MEDIA GROUP

That idea spread to millions.

From New York to Hong Kong, from Sydney to London, our story, our uncompromising integrity, and our honest and in-depth news and features, have inspired and engaged millions around the world.

MEDIA GROUP

TRUTH. IT'S WHAT WE STAND FOR.

OUR NEWSPAPER

In May 2000, a group of Chinese-Americans started a fledgling news publication in response to growing demand for free information from the Chinese community.

From a single print and web edition in New York City, the publication quickly grew to span 35 different countries and publish in 21 languages. Today, the Epoch Times is one of the largest Chinese-language media groups outside of Asia.

A trusted brand

The paper's independent and award-winning content makes it a key influencer in the Chinese community with a devoted and loyal readership. It covers important local, international, political and economic news and current affairs. The paper also features rich local content to enrich the daily lives of the Chinese community and build a deeper understanding of the Australian way of life.

Australia's widest circulating Chinese-language news publication

The Epoch Times publishes six metro print editions every week and our Chinese digital platform enjoys an online readership of 220,000 unique visitors per month. The paper is also one of the few Chinese-language publications with a consistent circulation audit.

Amongst advertisers, the Epoch Times is considered the true link between East and West - the new Silk Road!

PANPA Newspaper of the Year Award Finalist

Epoch Times' leadership in news media publishing was recognised at the coveted industry-run 2016 PANPA Newspaper of the Year Awards. Attracting entries from across the Asia-Pacific region, the PANPA awards place an emphasis on the quality of journalism, cross platform execution, design and the ability to engage audiences across multiple platforms.
